According to Kopimi all truths can be summarized in one sentence: "The Internet is right."

Though seeded in prehistory, Kopimi is rooted in the future, and holds together a constantly vibrating avalanche of knowledge that forms the foundation for a discussion indifferent to the rippling changes of time and space. A tumult where no one has the permission to keep silent, and where we must speak to everyone and everything.

In attractive flocks, passionate swarms and boisterous schools, we sow ourselves into new contexts and eras. This book is a spontaneously organizing, clustering community project with a single purpose – Kopimi shall be deepening, propagating, and all-consuming. We want to reach further into ourselves and into Kopimi. We want to penetrate further into you, and into the future.

Our words shall, simultaneously, sound as foolishness upon deaf ears and lovely caresses to those who see and hear, but above all: They should bite firmly into you – and your mom. This is a book for those of you who find yourselves in the moment, but are looking for your way forward through the ages.

Please be assured that any further contact with us, regardless of medium, will result in

- a) a suit being filed for harassment
- b) a formal complaint lodged with the bar of your legal counsel, for sending frivolous legal threats.

It is the opinion of us and our lawyers that you are fucking morons, and that you should please go sodomize yourself with retractable batons.

Please also note that your e-mail and letter will be published in full on <http://www.thepiratebay.org/legal>

In the shadow of the culture industry's final crisis of the 20th-century, grows a larger portrait of the POWr, broccoli and Kopimi. The culture industry's complete failure is followed by the uncanny success of the diffused structure of an Internet elite, spread the world over. The book you're about to read has no author, no designer, no typesetter, no distribution channel. Nevertheless, you have it in front of you. How did that happen?

Read the frightening instructions of a loosely coherent core of IT specialists grafted into an unsuspecting generation of youths, and how the group stole the eggs, dollars and jpegs in front of the powerless establishment and strong financial interests. Learn how servers, seeders, trackers, e-mail, company formation, foreign investors, Ikko's weekly allowance, scandalous advertisements, links and search services, infiltrated and destroyed an entire world that had nowhere to run, no one to consult, and no one to trust...

The machine, which operates under the radar frequency is unhindered from the Cambodian jungle to the gay neighborhoods of San Francisco, via the empty beaches of Tel-Aviv, and into the Internet of plain folks in Jönköping

suburbs and Gothenburg harbor. It leaves no one unmoved and mangles everything in its path. Technically superior and physically independent it's constantly transforming, mutating and reappearing in new guises and under new codenames. With a stranglehold on its opponents it's completely untouched and even more – incomprehensible.

It has rightly been said that this is the first time Kopimi has freed the world and we can be sure that it's not the last.
